

COMUNICATO STAMPA

SGB Humangest acquires IHM Total Consult in Romania

Bucarest, October 3rd, 2019 - **Roberto Maroni**, Chairman of SGB Humangest, an Italian Group of companies providing specialized consulting services in the field of human resources selection, training and management, has announced today **the acquisition of IHM Total Consult SRL**, a Romanian company involved in providing services in the fields of temporary work, recruitment, selection, administration and payroll services.

The acquisition of IHM turns SGB Humangest operations in Romania into a 25 million euros business whilst becoming the 4th largest provider of temporary work and human resources services in the Romanian market in terms of turnover (*according to the figures for 2018). The acquisition also brings into the Group additional expertise and talent in recruitment, administration and payroll management services.

The acquisition had received the approval of the Romanian Competition Council earlier in the year.

“This acquisition will help SGB Humangest consolidate its presence on the Romanian market while pursuing its overall objective of providing high quality human resources solutions to both its local and international clients”, said Mr Maroni.

As per **Gianluca Zelli**, CEO of the SGB Humangest, *“This acquisition will help us strengthen our market positioning and expertise in the world of temporary work and leasing of personnel. Considering our unwavering focus towards offering our customers a “best in class” range of HR related solutions, we believe that the team we have found in IHM will play a key role in achieving this objective. Today’s real challenge lies in matching corporate requirements with candidates’ aspirations and – as a team in Italy and Romania – we welcome the opportunity to address it every day.”*
